

HeartBeat.bio AG (HBB) has built a highly scalable **human organoid and AI-supported drug discovery platform** for developing **first-in-class drugs for heart failure faster, less costly and with a higher probability of success in clinical trials**. Our core technology is based on the **worldwide first self-organizing heart-chamber-in-a-dish models (Cardioids)** which resemble the human physiology of the different compartments of the heart while allowing for the cost-efficient and large-scale *in vitro* analysis of crucial parameters associated with cardiac diseases. We believe our **Cardioid Drug Discovery Platform and our animal-free, human-centric approach** have the potential to **revolutionize the current cardiac drug discovery paradigm**.

We work in a dynamic and collaborative environment at the **Vienna BioCenter (VBC)** and are looking for highly motivated candidates who share our excitement for human (cardiac) organoids and making a difference in patient lives. Currently, we are seeking a Laboratory Technician who:

- Has completed a Bachelor's degree in the life science fields
- Has worked in a life science/molecular biology lab
- Has excellent communication and organizational skills
- Is reliable, proactive and is able to support team operations primarily in a wet lab environment
- Enjoys working in a high-performance team
- Experience with (stem-) cell culture is beneficial

Your duties will include:

- Supporting multiple scientific projects by facilitating smooth operations of the wet lab incl. sample management, media preparation, etc.
- Supporting laboratory operations (ordering, inventory management, records)
- Assisting lab manager in laboratory safety and administration activities
- Be proactive, highly motivated and able to work without supervision

Since we are working in an international scientific environment, both excellent English and German skills are required.

The annual gross salary is € 35,000 or higher depending on qualification and experience for full-time employment (40h/week). If you're interested in joining our exciting new company, please send your CV, letter of motivation and, if possible, the names and contact details of two references to careers@heartbeat.bio.

We look forward to hearing from you.
